

Christopher Columbus was born in Italy in 1451. He was the first European since the Vikings to sail across the Atlantic Ocean to America. Columbus was sure that he could sail west to find a new route to the spice ports of the „Indies“ (Asia). King Ferdinand and Queen Isabella of Spain paid him to make his voyage.

In 1492, Columbus set sail with three sailing ships. After 36 days the crew sighted land, in the Bahamas. The local people were amazed to see the strangers. Columbus called the local people Indians, for he believed he had reached the Indies. In fact, he had discovered a new world – America.
